# LUCIE BARNES

MULTIDISCIPLINARY DESIGNER | FOUNDER OF REISE STUDIO

Based in Dubai • Looking to relocate to Oslo

I'm Lucie, a multidisciplinary designer and architecture graduate, with six years of experience building and running a creative design studio. My work spans branding, websites and commercial interiors, alongside managing projects, leading creative collaborators, and building lasting client relationships.

Having worn most of the hats that come with running a studio, I'm now looking to relocate to Oslo and bring that experience into a creative design team. I'm excited to work closely with other designers, contribute across disciplines and give more of my day to the work I enjoy most: designing.

## SKILLS

## EXPERIENCE

**Reise Studio – London, UK & Dubai, UAE**
Founder & Designer | 2020-present

Founded and run an independent design studio, working with over 500 businesses ranging from small companies to larger organisations.

- Deliver projects across branding, web design, marketing and commercial interiors.
- Translate client briefs into design concepts and developed creative work.
- Manage project teams and collaborate with creative partners across disciplines.
- Manage day-to-day business operations, including proposals, client relationships and project planning.
- Design and build websites using Wix Studio, achieving Legend Partner status.

**Live Love Beirut – Beirut, Lebanon**
Architectural Designer | July - December 2021

Spent six months supporting the restoration of heritage buildings damaged by the Beirut port explosion.

- Produced 2D drawings and 3D visualisations for rebuilding proposals.
- Supported on-site coordination as an assistant site manager.
- Gained hands-on restoration experience, helping translate design proposals into work on site.
